

## ORTF-3D

### 8ch ambience recording setup for 3D-Audio

Windshield WSC ORTF-3D (picture without black fabric and fur)

### Excellent spatial sound, compact size

- „Plug and Play“ solution for 3D-Audio
- Wind and weatherproof with internal heating
- 8 discrete recording channels for L, R, Ls, Rs and Lh, Rh, LSh, RSh. If a Center channel is needed, add the downmix L+R at a low level.
- Optimal imaging characteristics, similar to those of the “ORTF Stereo” and „ORTF Surround” setups: very good 360° imaging with a pleasant, natural-sounding spatial impression, large listening area
- Uses 8 SCHOEPS CCM 41(V) supercardioid studio quality microphones.
- **“ORTF-3D Outdoor Set”**  
Complete set includes windshield with suspension and fur, 8 microphones, two multicore cables, two breakout cables; additional rain protection available as an option.
- Applications: Ambience for sports events, film sound, etc.
- Demo recordings are available on request

ORTF-3D windshield with fur

Specs (windshield with fur):

- weight ca. 1000 g
- Size (mm): 440 × 360 × 210
